

MARDI GRAS

There would be no Mardi Gras without King Cake! Without the oils, fats, and flavorings produced by industry, you wouldn't be able to enjoy your favorite King Cake.

Where do Mardi Gras beads, masks, and other parade throws come from? Plastics! The plastics produced by Louisiana industry allow us to manufacture fun!

Mardi Gras would be no fun without parades! From the vehicle that pulls a float to the paint and other materials used to decorate them, industry makes it all.

Everyone enjoys getting dressed up for the Mardi Gras ball, but that wouldn't be possible without synthetic fibers produced right here in Louisiana that make up tuxes and gowns.
